Government Records

Ontario Vital Statistics

Vital statistics registration started in 1869 in Ontario. The following years have been released to the Archives of Ontario by the provincial government. Another year in each series is released every year. We have the index reels on microfilm in the Local History Room for.

Births: 1869-1917 (MS 931 Series)

Marriages: 1873-1932 (MS 934 Series) (For marriages that occurred between 1869 and 1873 check: **Index to Marriage Registrations of Ontario, Canada, 1869-1873**, GenRef 929.3713 RUM, Books 1-6) (**Note:** Marriages are now available to 1937)

Deaths: 1869-1942 (MS 937 Series) (**Note:** Deaths are now available to 1947)

The indexes are in alphabetical order by surname. There are multiple years on early reels (e.g., MS 937 Reel 1, Deaths Index, A, 1869-1919). As additional years are microfilmed they are put on separate reels (e.g., MS 937 Reel 15, Deaths Index, A-Z, 1927). You need the registration number from the index to request the reel containing the actual registration of the event through interlibrary loan. To find out which reel is needed you must check the Archives of Ontario catalogue (in a binder on top of the microfilm cabinet in the Local History Room) or the Archives' website (<http://www.archives.gov.on.ca/en/microfilm/vsmain.aspx>).

To find the correct reel in the catalogue:

1. Find the right section (births, marriages or deaths).
2. Find the appropriate year. Note: Some events are not registered in the year in which they occurred so be sure to check the two-digit registration year after the registration number.
3. Locate the range of numbers that the registration number falls between to get the correct reel number. The specific series and reel number must be listed on the interlibrary loan form (e.g., MS 929 Reel 142). If the registration number is between 200,000 and 399,999 it was a delayed registration recorded after the year that the event occurred. Remove the first digit (the "2" or the "3") and look for the rest of the registration number. In some cases, there may be registration numbers greater than 400,000. Consult the Archives' website to see what you have to do to get these records.

Note: For further assistance in finding these records you can follow the steps listed in the Vital Statistics Records research guide (www.archives.gov.on.ca/en/access/documents/research_guide_202_vital_statistics_EN.pdf) on the Archives of Ontario website.

Things to remember:

1. Many registrations were not sent in, especially during the early years of vital statistics registration since the Clerks who were responsible didn't consider it a priority.
2. There may be errors so variations of surnames and/or given names should be checked (sometimes no first name is listed).
3. Sometimes pages of the index may be missing or out of focus so check the beginning of the film for possible retakes.
4. Entries with surnames too difficult to read have been indexed under "U" for "unknown".

Church Records

To find church records you need to:

1. Figure out the family's location at a specific time.
2. Find out their religious affiliation (try the census).
3. Discover the location and the name of the appropriate church, minister, circuit or mission through historical reference material.
4. Find out if the relevant registers still exist and where they are currently kept.

Finding Aids

1. Branches of genealogical societies may have published records for the churches in their area. Check the publication lists for the different branches in the appropriate area. Examples in our local history collection include: **Dumfries Street Presbyterian Church, Brantford, Ontario: baptism register 1821-1857, Grace Anglican Church burials: 1836-1867, Mohawk Church baptisms, marriages, burials 1827-1836.**
2. **Checklist of Parish Registers**, published by the National Archives, lists the microfilm that they have. We have the 1986 edition at Genealogy Reference 929.371 PUB.
3. Church records collection at the Archives of Ontario – listing of microfilm they have is on their website (www.archives.gov.on.ca/en/microfilm/church_records.aspx). The Archives has some Catholic Church marriage registers on microfilm and you can check the index, **Roman Catholic Marriage Registers in Ontario, Canada 1828-1870**, compiled by Renie Rumpel (Genealogy Reference 929.3713 RUM) to see if these microfilms would be useful.
4. To find Anglican Church records, you need to locate the correct Anglican diocese archives. Refer to **The Guide to the Holdings of the Archives of the Ecclesiastical Province of Ontario** (R283.713 GUI) for this information.

Print Resources

District Marriage Registers (1831-)

Registers for 17 out of the 20 districts have survived (Dalhousie, Midland, and Niagara did not survive). The time periods covered by these marriage registers are not all the same since it depends on when the district came into existence, ceased to exist or when portions became part of new districts. Only 5 of these district registers have oaths and affidavits of marriages performed before 1831: Home, Johnstown, London, Ottawa, and Western Districts. Sometimes these volumes have lists of baptisms and burials as well. This series is in print (GenRef 929.3713 WAL) and on microfilm (MS 248 Reels 1-4, 13).

County Marriage Registers (1858-1869)

These registers were kept from January 1, 1858 until civil registration began in Ontario on July 1, 1869. Sometimes there are marriages included that were performed before or after these dates and sometimes there are gaps in the record keeping between 1868 and 1869 during the transition to official record keeping by the province. This series is in print (GenRef 929.3713 COU) and on microfilm (MS 248 Series).

Wesleyan Methodist Central Registry of Births & Baptisms

This registry covers Ontario and part of Quebec and is most useful for 1840-1873. However, it is not a complete listing of all baptisms from this time period. These baptisms are listed on a website (freepages.genealogy.rootsweb.ancestry.com/~wjmartin/wm-index.htm) and many genealogical societies have compiled the ones listed for their county into a book (e.g., Wesleyan Methodist Baptismal Register for Brant County, R283.71347 WES Local History).

Primitive Methodist Baptism Register-Markham Circuit

An index to this register was published in the Ontario Genealogical Society's periodical **Families** in 1989 and 1990. We have this periodical in the Genealogy Reference section of the Local History Room.

Methodist Episcopal Church Niagara Conference Baptismal Register

This register includes baptisms for 1849-1906 (predominantly 1858-1886) and covers much of southern Ontario. An index to the register was published in two parts by the OGS and includes all information in the register except the name of the minister performing the baptism. The **Index to Niagara Conference Methodist Episcopal Church baptismal register, 1849-1886: a guide for genealogists** by Louise I. Hope in the Local History Room (R287.632 HOP Local History).

Marriage Banns, Bonds & Licences

Thomas B. Wilson published **Marriage Bonds of Ontario, 1803-1834**, an index and partial abstraction of surviving Ontario marriage bonds (GenRef 929.3713 WIL). Library and Archives Canada has a searchable database, Upper and Lower Canada Marriage Bonds (www.bac-lac.gc.ca/eng/discover/vital-statistics-births-marriages-deaths/marriage-bonds/pages/marriage-bonds-upper-lower.aspx) which provides references to: 7899 marriage bonds for Upper Canada (Ontario) issued between 1803 and 1865 and 2960 marriage bonds for Lower Canada (Quebec) issued between 1779 and 1858.

Vital Records of Upper Canada/Canada West

Dan Walker and Fawne Stratford-Devai have compiled church records from different sources in the Niagara District, the Gore District, and the Dalhousie District for various years (GenRef 929.3713 WAL). For example, one of the Gore District volumes includes: Dumfries Street Presbyterian Church, Paris, Ontario, baptisms, 1821-1857 and Knox Presbyterian church, Hamilton, Ontario, baptisms 1833-1857, marriages 1834-1857, burials 1841-1857.
